A Dependent Care FSA lets you save on dependent care expenses using pre-tax dollars. Your Dependent Care FSA can be used to pay for a wide range of care services for eligible dependents, however, dependents must meet the IRS "Qualifying Person Test" criteria.

As with other FSAs, it is important that you estimate your expenses carefully. Unlike a Health Care/Medical FSA, your entire election is not immediately available for use. Funds only become available as they are contributed. Additionally, any money left in your account at the end of the plan year will be forfeited.

Dependent Care expenses might include the following:

Day Care and After School Care

Summer Day Camp

Care for Dependents with Mental or Physical Disabilities
